4-Armed Palmette Pear Tree Beautiful with Bloom in Springtime
(See same tree below as it appears in Autumn)

Bowers of Bloom in the Springtime Bushels of Fruit in the Fall

DWARF-TRAINED ESPALIER FRUIT TREES

A Luxury of the Wealthy Now Within the Reach of All

DWARF-TRAINED Espalier Fruit Trees are not a novelty, they have been perfected through centuries of Old World garden craft. They scarcely take up any room. You can grow flowers right up to their very feet. When trained on walls, they cast no additional shade but allow the sunshine to pour into your garden. There is room in the smallest garden for at least a few of these miniature orchards, trained on fences or trellises or against the side of the house or other building.

Attract Attention Throughout Long Season

Espalier Fruit Trees are fascinating from the time the first pink of the flower buds show in the spring until the ripe fine fruit has been harvested. At flowering time, the walls are a bower of beauty; and again in the fall when the large, rich, highly colored fruit ripens. The fruit is much finer and larger than when grown in the usual way.

Espalier Fruit Trees Pay Big Dividends

In Europe, where these trees have been grown for centuries, the primary object is fruit rather than display. The severe pruning that they have received to bring them to their present form is just what is needed to make the trees bear highly colored,

large-sized fruit in great quantities. As the trees grow in size, the fruit crops increase. Espalier Fruit Trees often live for 75 years or more, paying their owners annual dividends in fruit of the highest quality.

Bearing Age Trees—Completely Trained

The trees I will ship you this fall are all ready to bear fruit. They will give you beautiful blossoms in the spring, followed by large, luscious, juicy fruit.

These trees are completely trained into the forms desired. They require only an annual pruning to keep them in proper shape and require little care.

Espalier Fruit Trees—Forms and Prices

Espalier Forms for Every Decorative Purpose

U-FORMS—Upright arms join at bottom in easy curves.

U-FORM—A very useful and practical formation which can be used in many different ways. The width between the vertical arms is approximately 18 inches. 4 to 6 ft. \$6.00; 6 to 8 ft. \$8.00.

DOUBLE-U FORM—Especially suited to Peaches and Nectarines. Requires about 8 ft. of space on wall or trellis. 4 to 5 ft. \$10.00; 5 to 6 ft. \$12.00.

Palmette Verrier Forms

Upright arms rise at right angles from the horizontal arms.

4-ARMED PALMETTE VERRIER—One of the most popular of all Espalier forms. The 4-Armed Palmette Verrier covers a space 4 ft. in width 5 to 6 ft. \$10.00; 6 to 8 ft. \$12.00.

6-ARMED PALMETTE VERRIER—A very decorative form covering space of 6 ft. (Available in Apples and Pears only). 4 to 5 ft. \$15.00; 6 to 7 ft. \$18.00.

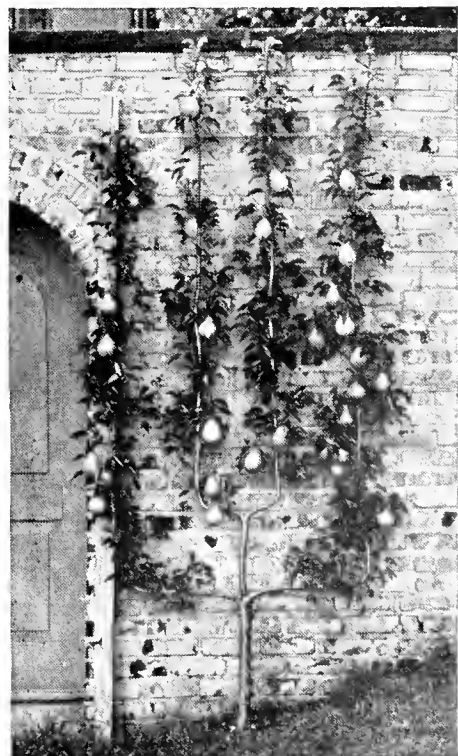

8-ARMED PALMETTE VERRIER—The widest trained vertical form. Covers from 8 to 10 feet of wall space. (Available in Apples and Pears only). 4 to 6 ft. \$20.00; 6 to 8 ft. \$24.00.

BELGIAN FENCE—A beautiful pattern effect, consisting of a combination of Double Oblique Cordons and special end Cordons. Gives a beautiful lattice like effect. Can be worked out to cover any wall space 30 or more feet in length. Write for prices and give area to be covered.

THE WORLD'S FINEST ORIENTAL POPPIES

In ancient times the Oriental Poppy was dedicated to the Goddess Ceres, who, holding a lighted torch in one hand, and a Poppy blossom in the other, was said to keep watch over and carefully guard their fields and crops. Nothing is more showy or more durable in the garden than the modern hybrid Oriental Poppies, but to be sure of getting the finest stock one must procure plants that are grown from root divisions of the original hybrid, and not seed grown plants. All plants offered by me are strong field grown plants from authentic root divisions of the original hybrid, and they will grow more beautiful and more gorgeous with each succeeding year.

While many seed grown Poppies are sold, it is a fact that many of the finest hybrids never produce seeds and those that do never come true from seeds. Therefore, I do not sell any seed grown plants.

Nothing is easier to grow than these gorgeous Oriental Poppies. The secret of success is planting them at the proper time. Spring or early Summer plantings are doomed to failure, but they may be safely planted after they become dormant in late Summer and early Fall. It is best to place your order now, while you have it in mind, and I will send them just at the right time for best results. (Those who visit my gardens may procure pot grown plants at any time at double the cost of dormant roots, but I never attempt to ship these pot grown plants.) Orders should be placed at once to assure success.

This collection of "The World's Finest Oriental Poppies" leaves nothing to be desired. Planted either singly, or in small groups, or masses, they add a touch of barbaric splendour to any garden and never fail to arouse the admiration of all who see them.

GEMS for the ROCK GARDEN

and for SMALL BEDS and MARGIN PLANTING

Aquilegia (Columbine)

fully double, about an inch in diameter, and borne profusely from early Summer until killed by frost. The equally tiny leaves are also very ornamental. It grows only 6 to 12 inches tall, depending upon the richness of the soil, and about the same width. Once planted, it requires no further care. A real gem.

75c each; 3 for \$1.50

SUN OR ROCK ROSE—Very showy dwarf evergreen shrubby plants; for a dry sunny place in the rock garden. Continually loaded with tiny flowers. Colors white, yellow, red and pink, one color or assorted.

50c each; 3 for \$1.25

CHRISTMAS ROSE (HELLEBORUS)—This very rare and unusual plant produces its white flowers during the Winter months, regardless of snow or freezing weather. Its leathery foliage is evergreen and will withstand sub-zero weather. Prefers a damp shady spot. Strong plants.

\$1.00 each; 3 for \$2.75; 6 for \$5.00

VIRGINIA BLUE-BELLS (Mertensia Virginica)—12 to 18 in. This is one of the most delightful of all early Spring flowers, and there are so many ways to make use of them. While a few plants will be the outstanding attraction of a small garden, a mass planting naturalized in a meadow or along a woodland path or on grassy banks is a never-to-be-forgotten sight. In the rockery, or in the border, or the wild garden, in a quiet corner, or a conspicuous spot, they are equally at home. The flowers are of a lovely porcelain blue, intermingled with pink florets, and the flowers grow in graceful clusters. They flower throughout the month of May on Long Island. Try these Virginia Blue-Bells on my recommendation, and you will be delighted with them... 40c each; 3 for 75c; 6 for \$1.25; 12 for \$2.25; 100 for \$15.00

CANDYTUFT (Iberis)—This hardy Candytuft is a very profuse bloomer, literally covering the plant with a blanket of snow white flowers in early Spring. For the balance of the year the rich dark green leathery foliage is quite ornamental. 50c each; 3 for \$1.00; 6 for \$1.75

MINIATURE DAYLILIES—The following list of Miniature Daylilies are all ideal for the rock garden, either in full sun or semi-shade. The foliage is grass-like and the flowers are charming. All are of the easiest culture. Height about 12 to 18 inches.

DUMORTIERI—Rich deep orange. May, June. 50c each; 3 for \$1.50; 6 for \$2.50

GRACILIS—Dainty lemon yellow. May, June. 50c each; 3 for \$1.50; 6 for \$2.50

MINOR—A pleasing primrose yellow. June. 50c each; 3 for \$1.50; 6 for \$2.50

ORANGEMAN—Very early. Medium yellow. 50c each; 3 for \$1.50; 6 for \$2.50

One of each for \$1.75; 3 of each \$4.50

DIANTHUS GRANITICUS—6 to 8 in. A very lovely, symmetrical, low growing Dianthus of rather dense growth, smothered with myriads of attractive tiny pink, red and white flowers. Assorted colors only.

35c each; 3 for 85c; 6 for \$1.50; 12 for \$2.50

DIANTHUS DELTOIDES BRILLIANT—Similar to above in one color only, a glowing crimson red. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00

DIANTHUS ROSE CUSHION—A very free flowering uniform true rose pink. 50c each; 3 for \$1.00; 6 for \$1.75; 12 for \$3.00

BLUE BELLS OF SCOTLAND

(Campanula Rotundifolia)—6 to 10 in. Attractive tiny blue bells freely produced from June to August. Does well in light shade.

50 each; 3 for \$1.00

AQUILEGIA (Columbine)—15 to 18 in. Every gardener loves the dainty Columbines. The long-spurred Hybrids I am offering are a great improvement over the older varieties. There is a wide range of delicate soft colors and

rich pastel shades. Large, healthy 2-year field-grown plants.

3 for 75c; 6 for \$1.25; 12 for \$2.00, Postpaid

HARDY CARNATIONS

IMPROVED CRIMSON KING—This is by far the finest of all Hardy Carnations, flowering perpetually throughout the entire Spring, Summer and Fall. The color is a dazzling crimson and the stems are long enough to make it suitable for cut flowers as well as an excellent garden subject.

3 for \$1.25; 6 for \$2.00; 12 for \$3.50

GRENADIN PINK—A lovely delicate pink Hardy Carnation, that is equally fine in the garden and for cut flowers.

3 for \$1.00; 6 for \$1.50; 12 for \$2.50

GRENADIN WHITE—A wonderful white form of the above.

3 for \$1.00; 6 for \$1.50; 12 for \$2.50

CORAL BELLS (Heuchera)

ROSAMUNDI—Graceful bell-shaped flowers of coral pink. Fine for cutting. 50c each; 3 for \$1.00; 6 for \$1.50

TRILLIUM GRANDIFLORUM (Wake Robin)—10 to 12 in. This is the best of all Trilliums, producing large star like blossoms in the Spring. The Trillium is a native woodland plant, known as wood-lilies or Wake Robins. Fine for a shady nook in the garden or for naturalizing in the woodland. When once planted they continue to multiply and require no care.

3 for 75c; 6 for \$1.25; 12 for \$2.25 Postpaid

THE NEWEST and BEST of the HEMEROCALLIS (or Daylily)

In this very fine collection of Hemerocallis or Hardy Daylilies, I am offering many new varieties for the first time. There are tall ones shoulder high for the centre or back of the border, those of medium height for nearby, and dainty small flowered, low growing ones for the rock garden or small flower bed. Many new and unique colors are now listed. In the whole horticultural world nothing is more showy in the garden than these modern Hemerocallis or Daylilies, and few plants can match them for vigour and hardiness. Once planted they will take care of themselves and grow more beautiful each year, often producing 500 or more flowers to a single plant in a season. By a judicious selection of varieties one may now have these beauties in the garden all Summer long from May until frost. Some are exquisitely fragrant. They may be planted in full sun or semi-shade, and are not particular as to sun or location. I am sure that many of my friends will be glad of the opportunity to secure some of these rare and unusual Hardy Hybrid Daylilies.

AMARYLLIS—46 in. Large handsome golden-orange flowers, six inches across. July, August\$1.00
ANNA BETSCHER—36 in. Rich golden yellow flowers in great profusion.....\$1.25
APRICOT—24 in. Fragrant, early flowering, soft apricot flowers of fine form.....75c
AUREOLE—36 in. A rich orange yellow hybrid from Japan. Given an Award of Merit by the Royal Horticultural Society of England. Very floriferous. June flowering.....50c
BAGDAD—42 in. One of Dr. Stout's newest creations just being introduced. A gay combination of several colors, orange red, yellow and madder brown. June, July.....\$5.00
BAY STATE—42 in. Fine, large, very deep yellow flowers during July and August.....\$1.00
